Project Management Institute (PMI®) Certification Training

Project Management Institute (PMI®) Certifications are the project management credential of choice across a vast array of industries and companies. By attaining your PMI® Certifications, your name will be included in the largest and most prestigious group of certified professionals in the project management community.

Entry level

Certified Associate in Project Management (CAPM®) Certification

The CAPM® certification is designed as an entry-level certification for project managers with little or no experience.

By training for and passing your CAPM® certification you can demonstrate clear foundational training and skills to begin your career as a Project Manager.

To earn your CAPM® certification, you need to have:

- High School or equivalent diploma
- At least 1500 hours experience OR 23 hours of Project Management training

⇒ [View CAPM® Course Outline and Schedule](#)

Expert level

Project Management Professional (PMP®) Certification

PMP® certification is the ultimate industry-recognized certification for project managers. By earning your PMP® Certification you establish your experience, competency and training to successfully lead and direct projects. The PMP® certification improves your marketability to employers and higher salary.

To apply for the PMP® certification, you need to have either:

- A four-year degree (bachelor's or the global equivalent) and at least three years of project management experience, with 4,500 hours leading and directing projects and 35 hours of project management education.

OR:

- A secondary diploma (high school or the global equivalent) with at least five years of project management experience, with 7,500 hours leading and directing projects and 35 hours of project management education.
